

ABSTRACT OF THE DISCLOSURE

A box comprising a body formed from a blank, wherein the blank comprises a support having a first surface and a second surface and at least the first surface has printing thereon. The blank further comprises at least one sheet of non-woven material, the at least one sheet of non-woven material being arranged on the first surface of the support. The at least one sheet of non-woven material may be at least partially transparent so that the printing on the first surface of the support is visible through the sheet of non-woven material.
